## **DETAILED ACTION**

### ***Election/Restrictions***

Claims 6-8 have been withdrawn and hereby cancelled from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group of claims, there being no allowable generic or linking claim. Election was made **without** traverse in response dated April 12, 2004.

### ***Allowable Subject Matter***

**Claims 1-5 and 9-14 are allowed in view of the prior art.**

The following is an examiner's statement of reasons for allowance:

As to claims 1, 5, 9, 10, 13, and 14, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a monolithic single pass expanded beam mode active optical device and related optical communications devices, in combination with the rest of the limitations of the above claims.

In further regard to those claims, the prior art, such as US Pat. 6,278,170 to Komatsu, discloses semiconductor waveguide modulator devices with multiple quantum wells. However, the prior art fails to disclose the use of expansion and contraction sections to affect the mode of the light beam passing through each respective section, in combination with the rest of the elements and limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
